

Exchange articles to earn money online

The concept of the exchange of articles can be understood in two ways. On the one hand is a marketplace where you can buy to order article content for its further placement on the website, see exchange contentimporter. And on the other hand is a place where SEOs are those who promote websites can enjoy posting articles on sites we trust, consider this option. For webmasters the exchange of articles is one of the ways to earn money on the website and for SEO exchange articles is a good source of natural backlinks for website promotion. I adhere to the opinion that if you post your article to other resources that only the eternal and only trust the resource. Website promotion articles helps to raise your site position in search engines and increase puzomerki the TIC and PR because contextual links in articles that look like natural links. First you need to register in the exchanges they are considered below. Then add your site to the system wait for moderation. Then you can apply for accommodation and wait for requests from SEOs. Articles are placed for money. The cost of accommodation depends on Your site and especially from puzomerok the TIC and PR, and many other parameters all of which can be combined into one word, trust. Generally speaking for the webmaster it's almost a perfect solution it fills the site with content and get money for it. For example for a site with ТИЦ100 topic strokeandfillpath, you can easily place articles on 500..1000 roubles for one piece. In the theme of media the prices are slightly lower. The lowest rates are for entertainment topics humor movie. For posting articles, you can search optimizers and yourself but it's quite difficult. Consider what exchange articles exist for earnings on the website. 1. MIRALINKS review - the most big and famous exchange of the eternal articles. Here you can buy articles on the most reputable of sites. It should also be understood that the value of such fatty sites can reach thousands of rubles for the article. The system has the ability to order the copyright and immediately post links to other sites. The system has built-in content exchange to buy articles if the text of optistore no - MIRATEXT. 2. WEBARTEX - new exchange articles from SEOPULT accepted only trust sites with a TIC of 20 and aged. Well established actively growing. Seopul't keen to develop their services and applications so come here regularly. Here you can also find quite a fat pad for placement. It is possible to order the copyright right on the spot. 3. RODINALINKOV full exchange links and articles. Is the phone technical support. The office is quite serious and good but not popular.
