

How to earn in social networks: earnings on SMM and SMO

The continuation of the article is it Possible to become a millionaire from the slums or how to make money in social networks. Part 1. In a previous article, I described the easiest methods of earnings in Vkontakte and facebook. In this article I will discuss how to move forward in this direction and learn how to earn orders of magnitude more. We will focus on providing the simplest SMM Social Media Marketing services. Also, this article will be useful for those who want to promote your business on social networks alone. Promotion in social networks almost mastered a new direction in the Internet business. In contrast to search engine promotion is here to promote without large capital investments. Moreover, I predict that nothing will change because the basic rule of promotion in social networks, creating content which engages the users. The ability to hook in this case gives a hundred times better result than sample technical methods to drive bots to cheat to screw. So while the market has not yet stabilized is the time to get involved in a fight. So if we decided to promote in social networks. How much you can earn Now the average price tag for the basic steps on the social media starts from 25 thousand rubles. Thus for such amount offered is usually to create a group Vkontakte or facebook, and fill its basic content. If You do REAL promotion the price tag for Your services will be a minimum 10 times more. Next, I want to tell the scheduling algorithm of the campaign promotion in social networks. Why achtnicht necessary with a clear definition of the goals and objectives of Your social media pages. For example you need to make an additional stream of visitors to your website - promote your brand in the audience - to increase sales - give fans of your business latest news. According to the chosen objectives and formed the basic strategy of business promotion in social networks. It is very important at every stage of clearly set goals. Clearly the goal shapes the understanding of what to do. Understanding what to do creates inner confidence. Inner confidence is a sure way to getting new customers. For example, take the case what You are promoting in the network new-fangled coach on personal growth with Bob Putkin. A person earns on the participants personal development workshops, personal consultations and sales of books CDs records seminars. If he becomes Your client most likely he needs an increase in sales take the most complicated case when the Bob Putkin is not known. Therefore, the main aim of our project is increasing sales and brand promotion. The main purpose of announced. What to do next Then you need our
